REPORT OF THE DEPUTY MINISTER

The Right Honourable SIR RICHARD J. CARTWRIGHT, G. C. M. G.,
Minister of Trade and Commerce,
Ottawa.

SIR,—It has been found necessary in presenting this the fourteenth Annual Report of the Department covering the fiscal year ended June 30th, 1906, to divide it into two parts, for reason that much information usually given with reference to the trade of foreign countries has not been received in season to include in the usual one volume and have it out of the Printers' hands before the re-assembling of Parliament after the Christmas holidays.

The statements and figures of Canadian trade, compiled and shown in first volume, do not seem to require any extended introduction—they speak for themselves—and show an unprecedented increase over the previous year of more than \$80,000,000, made up of about \$27,450,000 imports and \$53,270,000 total exports. The duties collected amounted to \$46,671,100 as against \$42,021,340 the year before.

Both the increases in imports and exports have been pretty well distributed over all classes of goods; this is most noticeable as regards exports, each class or division having participated in the increase, the combined classes of Animals and their products and Agricultural Products showing an increase of over \$29,000,000, although it is only fair to record the fact that the exports of both were during the previous year under the normal-vide Statement No. 2.

As previously stated, it is not wholly in figures of imports and exports that the prosperity or otherwise of a country is to be gauged; bank clearances, deposits, etc., are equal indicators. A statement similar to that published last year giving figures will be found on page xvii.

The usual statements showing transactions under Grain Inspection, General Inspection, Bounties, Chinese Immigration, Culling of Timber (fast declining), Steamship Subsidies, etc., will be found as heretofore. As regard Lead Bounties (heretofore paid to a considerable amount), only a few unsettled claims running over from the previous year have been payable, the price of Lead in London having throughout the year exceeded £16 per ton at which figures the Bounties under the terms of the Act run out.

The Report following, of the Superintendent of Commercial Agencies deals fully with that Branch of the Department.

6-7 EDWARD VII., A. 1907

A seven month's statement of Imports and Exports to October 31st, 1906, is appended, from which it will be seen that the progress and prosperity of the Dominion continues uninterrupted and will continue for the balance of the fiscal year, ending March 31st, 1907, with no immediate appearance of a period of depression, which must eventually—taking all past history as a criterion—come about, to meet which provision should be made and our house set in order while all is prosperous.

Respectfully submitted,

W. G. PARMELEE,
Deputy Minister.

REPORT OF SUPERINTENDENT OF COMMERCIAL AGENCIES.

OTTAWA, Jan. 2, 1907.

W. G. PARMELEE, Esq., I.S.O.,
Deputy Minister,
Department of Trade and Commerce,
Ottawa, Ont.

SIR,—I have the honour to present herewith the Third Annual Report of the Canadian Commercial Agency Service.

Since the last Annual Report this branch of the public service has continued its ever widening field of activity and usefulness and the correspondence in connection therewith has shown marvellously increasing proportions.

CIRCULATION OF THE WEEKLY REPORT.

The Weekly Report containing the reports of the Canadian Commercial Agents has been published regularly. Its circulation has grown steadily from a total of 1,700 copies upon January 1st to 2,300 copies on the 31st of December, 1906.

Every means have been taken to increase the circulation of the Weekly Report in quarters where its usefulness is recognized, and it is of interest to recipients, without sending it to perhaps hundreds who might be added to the list without their requesting it and who might not desire it, as is so frequently the case with Government publications.

TRADE INQUIRIES.

Last year the splendid record in the growth of the number of trade inquiry addresses furnished applicants has been this year far outstripped as the following statement will show :—

TRADE INQUIRIES RECEIVED.

Statements showing the number of Trade Inquiries received from Canadian Commercial Agents and other sources, at the Department of Trade and Commerce, and published in Departmental reports during the calendar years 1898 to 1906, inclusive.

Year.	No.	Monthly Average.
1898..	19	1.58
1899..	167	13.91
1900..	390	32.50
1901..	319	26.58
1902..	330	27.50
1903..	470	39.16
1904..	566	47.16
1905..	819	68.25
1906..	1,664	138.66

TRADE INQUIRY ADDRESSES FURNISHED.

Statement showing the number of addresses to Trade Inquiries furnished upon application to readers of Trade and Commerce reports for the same period as above :—

Year.	No.	Monthly Average.
1898.. (Quarterly Report published).....	0
1899.. (Monthly Report published).....	5
1900.. " " "	90	7·5
1901.. " " "	79	6·58
1902.. " " "	134	11·16
1903.. " " "	151	12·58
1904.. (Weekly Report published).....	1,164	97·00
1905.. " " "	2,985	248·75
1906.. " " "	8,966	746·65

The reason for the above statements showing that apparently more addresses were furnished correspondents than were received since the Weekly Report was first published in 1904, is by reason of the fact that some of the same addresses are furnished to many interested applicants. These statements only contain those inquiries which have been published, and interested firms found directly through the mediumship of departmental reports. The inquiries received and replied to in the ordinary correspondence of the department are not included in the above statement.

The above statement proves conclusively the value of these inquiries. The continued and largely increasing use of them shows that there must be business derived therefrom.

SOURCE OF THE TRADE INQUIRIES.

It may be of interest to know the offices whence the trade inquiries emanated. The following table therefore is appended, which shows the number of Trade Inquiries received at the department for the calendar year ended Dec. 31st, 1906 :—

CORRESPONDENCE.

Apart from the letters received and despatched by the Commercial Agency Service Branch of the Department of Trade and Commerce, the total number of letters received and despatched by the various Commercial Agents for the calendar year 1905 was 24,016, while for 1906, up to September 30th, (9 months), the number was 25,897.

BRITISH CONSULS IN THE UNITED STATES.

Since the last Annual Report a circular was addressed to the various British Consuls in the United States with a view to directly interesting them in promoting Canadian trade. A somewhat erroneous impression has heretofore existed in Canada to the effect that British Consuls do not interest themselves in Canadian Trade but in reply to the circular referred to all the British Consuls and Vice-Consuls in the United States expressed themselves in most emphatic terms as being ready at all times to do everything in their power for the advancement of Canadian trade. Many of them stated, however, that they were never approached by Canadian exporters, and unless the first advances were made by Canadians it was impossible to expect them to make their various staffs available. Their views were published at some length in Weekly Report No. 125, of June 18th

This feature of the work was highly commended by the Canadian Manufacturers' Association and other trade associations in Canada.

DISTRIBUTION OF TRADE CIRCULARS.

An innovation has been begun which doubtless will lead to satisfactory results. It is this: Brief and concise circulars were prepared for distribution in large numbers in Newfoundland and Mexico, the latter being printed in Spanish. These circulars draw attention to the fact that Canada has Commercial Agents established in those countries and they would be at all times happy to furnish all information in their power in reference to Canada. They further point out the facility with which trade inquiries could be handled. By this means it is hoped that the inquiries from those two countries will be largely increased, and if this experiment proves its worth the same system will be followed in other countries.

COMPLAINTS.

It is a pleasure to record that the complaints against Canadian shippers this year have been less frequent, and it is not necessary therefore to repeat in detail the nature of them. Those made, however, were principally in connection with the apple trade, which from the nature of the goods and the very large trade must always be productive, more or less, of complaints, arising in the main unintentionally.

A few specific charges have been investigated by the department with generally satisfactory results. In a matter of this kind the department has no authority to act, and when such charges are made the friendly offices of the department are employed toward settling differences between the foreign buyer and the Canadian exporter. The Department and its agents will continue ever vigilant in matters of this kind to uphold the reputation of Canadian goods abroad.

The complaints in general have appeared in the Weekly Report from time to time, and can be referred to in the index of that report for the year 1906.

ACTUAL RESULTS.

It is very difficult to get definite information as to the actual results accomplished by the various Canadian Commercial Agents for the reason that when an agent once

6-7 EDWARD VII., A. 1907

places a foreign buyer in communication with an intending Canadian exporter, the agent's duties there cease, and he has no means of knowing, except perhaps in a casual way, what business may have resulted. There have been, however, many specific instances of representatives having been appointed by the Canadian exporting houses through the direct mediumship of the Commercial Agents. There have also been specific instances of large orders having been placed through their efforts.

Other instances have been brought to the attention of the department of firms now making purchases in Canada who heretofore have been obtaining their supplies in foreign countries. Foreign importers, as a rule, are by no means ready to speak freely even to Commercial agents of the business that may have resulted. Results upon the whole must be looked for in the general rather than the concrete shape.

VALUE OF THE WEEKLY REPORT.

As an instance of the value of the Weekly Report it may be of interest to quote the remarks made by the Commercial Agent at Leeds, under date of August 27th, 1905. He states :—

‘With the fruit season now approaching, a great deal of correspondence is taking place between north of England fruit importers and Canadian apple shippers, which is attributed solely to the numerous inquiries which have appeared in the Weekly Report during the last few months. The effectiveness of this medium in bringing the importer and exporter into touch, is highly praised on this side; and as a direct result of its utility, the imports of Canadian fruit into the north of England this season will surpass all previous records.’

Again on October 18th, the Commercial Agent at Leeds writes :—‘I am pleased to be in a position to report that as a direct result of the Trade Inquiries which have appeared in the Weekly Report from this office, very many firms have got into direct communication with Canadian exporters, and are this year buying direct from the grower or shipper in Canada.’

NEW AGENTS APPOINTED.

Since my last report the following Commercial Agents have been appointed :—

W. T. R. Preston, Trade Commissioner to China, Japan and Korea, and H. J. Craig, Shanghai, China.

LIVING ALLOWANCES.

The very high esteem in which the Canadian Commercial Agents are held in some of the larger of the world's commercial centres has resulted in a condition of affairs which necessitates the recommendation that a more liberal remuneration be allowed them. Many of Canada's Commercial Agents hold the confidence of the highest officials of the countries wherein they are established, and are regarded not only as Commercial Agents of Canada but as accredited representatives of the Dominion Government.

The undersigned, therefore, recommends that a living allowance be granted such of the Agents as may be thought expedient to enable them to maintain the dignity of their office and uphold the reputation of Canada. The present salary paid these officials may seem to many sufficient, yet with the increased cost of living, and especially the prevailing custom the world over of exchanging official courtesies, frequently make the demands of the Canadian Agents greater than they can bear.

I have the honour to be, Sir,

Your obedient servant,

F. C. T. O'HARA,
Supt. of Commercial Agencies.

TERMINALS.

Of the terminal elevators the six largest are owned and operated by the following companies :—

The Canadian Northern Railway, Port Arthur, Ontario, having two with a capacity of 3,750,000 and 3,250,000 bushels respectively.

The Canadian Pacific Railway have three at Fort William, Ont., one holding 3,500,000 bushels and two of 2,500,000 bushels each, and the Empire Elevator Co. have one at Fort William, Ont., of 1,750,000 bushels capacity.

The greater portion of the grain taken into the hundreds of smaller elevators in the west, finds its way into these terminals at the lake front and is shipped from them to its ultimate destination, the bulk going by vessel to Montreal and Georgian bay ports.

The total shipments by vessel and rail from Fort William and Port Arthur, since September, 1899, are shown elsewhere in Statement No. 57.

COUNTRY ELEVATORS.

In the three provinces of Manitoba, Saskatchewan and Alberta, (including two for British Columbia,) there are 1,055 elevators, two of these have a capacity of 250,000 bushels, one 195,000 bushels, two 150,000 bushels, one 125,000 bushels, one 110,000 and one 108,000 bushels and five 100,000 bushels each.

The balance run from 3,000 up to 90,000, but the bulk of them are of 25,000 and 30,000 bushels capacity.

Excluding the thirteen elevators, that run from 100,000 upwards, the average for the remaining 1,042 would be 29,947 bushels.

WAREHOUSES.

The capacity of the fifty-three warehouses under operation during the year, range all the way from 3,000 to 20,000 bushels, and have an average of 6,847 bushels.

The number of warehouses are diminishing, and although the number is greater by seven than last year, there are only about one-half as many as five years ago.

INCREASE IN CAPACITY.

Of the total increase in capacity for 1905-6, viz.: 3,737,070 bushels, the country elevators and warehouses account for 3,069,070 and the terminal elevators for 668,000.

While last year the notable increase in the number of licenses issued was to be credited to the Track Buyers, this year the Elevators and Warehouses lead, being 96 or one over the net increase.

It is desirable to again point out that all these license holders are bonded, the grain growers being thus secured against loss in the disposal of their products.

The manifest increase in the acreage under grain in the three western provinces during the years above mentioned, indicate in a condensed form the rapidity under which our highly productive soil is being cultivated. With the large annual additions to the population, each year affords a clearer idea of the possibilities obtainable.

NOTE.—Previous to 1905, the Provinces of Saskatchewan and Alberta were grouped as the Northwest Territories.

Yield of wheat, year 1906, unrevised.
